About Ageing Well packs

Interactive session – using the packs

Public Health  
England

# Origins

## Health and Social Care Act 2012

From 1 April 2013

- Responsibility for local public health returned to local authorities
- Public Health England was set up as the expert national public health agency
- Pulled together c5000 staff and resources from many existing organisations eg Health Protection Agency, Department of Health, Strategic Health Authorities, Primary Care Trusts, Public health

# Mission

“To protect and improve the nation’s health and to address inequalities, working with national and local government, the NHS, industry, academia, the public and the voluntary and community sector.”

....through world-class science, **knowledge and intelligence**, advocacy, partnerships and the delivery of specialist public health services.

# Priorities

- Tackling obesity
- Reducing smoking
- Reducing harmful drinking
- Ensuring every child has the best start in life
- Reducing the risk of dementia
- Tackling the growth in antimicrobial resistance
- Reduce tuberculosis incidence

Public Health  
England

# Wider determinants of health

Our work saves lives, promotes wellbeing and **creates environments** that enable individuals, families, and communities be informed, empowered, healthier and more productive.

# Structure

- National Directorates based in London eg Health & Wellbeing
- 9 regional Knowledge & Intelligence Teams work to support them, and with...
- 9 PHE Centres (PHECs), to support....
- Local Authority Public Health teams

	Local eg CYC	Regional ie York & Humber	National
Supply Knowledge & Intelligence	CYC PH team	PHE KIT	
Implement		PHE Centre	PHE National

- Produce evidence, data and tools to support decision-making in public health... and make sure they are used
- **Support individual projects at national or regional level**, including national policy documents
- Answer ad-hoc queries and/or signpost to other resources
- Maintain capacity and capability - provide training in Public Health Intelligence

Public Health  
England

## PHE Products

- Public Health Outcomes Framework
- Health Profiles
- Mental Health Dementia and Neurology
- Longer Lives
- National General Practice Profiles
- NHS Health Check
- Inhale – Interactive Health Atlas of Lung conditions in England
- Diabetes profiles
- End of Life Care Profiles
- Atlas of Variation
- Adult Social Care
- Cardiovascular Disease Profiles

# Public Health Outcomes Framework (PHOF)

The screenshot shows the Public Health Outcomes Framework website. At the top, there is a navigation menu with links for Home, Contact us, Further information, and FAQs. A search bar labeled 'Indicator keywords' is positioned to the right of the navigation. The main heading is 'Public Health Outcomes Framework'. Below this, the 'Overarching indicators' section is highlighted in green. It includes a 'START Go to the data' button and a Twitter follow button for @PHoutcomes. The section lists four categories: 'Improving the wider determinants of health', 'Health protection', 'Health improvement', and 'Healthcare public health and preventing premature mortality', each with a brief description. At the bottom, there is a section titled 'About the Public Health Outcomes Framework data tool' and a 'Recent updates' section dated September 2015.

About Ageing Well packs

Interactive session – using the packs

# Ageing Well packs - Aim

Starting Well ⇨ Living Well ⇨ **Ageing Well**

To develop an intelligence pack for local authorities (LAs) and Clinical Commissioning Groups (CCGs) for support to improve outcomes from commissioned services for older people's health and well-being.

## Background and outline

- Based on previous projects – Commissioning for Value and Starting Well
- Gathers together relevant indicators
- Compares local areas with other similar local areas (nearest neighbours/ statistical neighbours)
- Benchmarks and looks for possible opportunities to improve patient outcomes

# Indicators selected from a number of data sources

- **Public Health Outcomes Framework (PHOF)** <http://www.phoutcomes.info/>
- **NHS Outcomes Framework (NHSOF)** <http://www.hscic.gov.uk/nhsf>
- **Adult and Social Care Outcomes Framework (ASCOF)** <http://ascof.hscic.gov.uk/>
- **Quality and Outcomes Framework (QOF)** <http://www.hscic.gov.uk/qof>
- **Commissioning for Value** <http://www.england.nhs.uk/resources/resources-for-ccgs/comm-for-value/>
- **Atlas of Variation** <http://www.rightcare.nhs.uk/index.php/nhs-atlas/>
- **HSCIC Indicator Portal** <https://indicators.ic.nhs.uk/webview/>
- **End of Life Care Profiles** [http://www.endoflifecare-intelligence.org.uk/end\\_of\\_life\\_care\\_profiles/](http://www.endoflifecare-intelligence.org.uk/end_of_life_care_profiles/)
- **Older peoples health and wellbeing atlas** <http://www.wmpho.org.uk/olderpeopleatlas/>
- **Excess Winter Deaths Atlas** <http://www.wmpho.org.uk/excesswinterdeathsinEnglandatlas/>
- **NOMIS - Census and Annual Population Survey Household datasets** <https://www.nomisweb.co.uk/>
- **Office for National Statistics - Population estimates and projections**

**Social Care**

LA (5) CCG (6)

**End of Life an Mortality**

LA (7) CCG (12)

**Inpatient Spend**

CCG only (14)

---

# Benchmark

- For each indicator in domain 3 to 8, the benchmark is calculated as the cluster average
- The worst quintile is defined as the lowest ranked 3 performing LAs/ CCGs in the cluster group
- The best quintile is defined as the highest ranked 3 performing LAs/ CCGs in the cluster group

# Packs will also provide

- Executive summary of indicators where LA/ CCG is in the worst quintile
- Summary by domain including opportunity for improvement and LA/CCG that is best for that particular indicator in your cluster
- List of indicators that are also worse than the average for your cluster
- List of similar LAs and CCGs
- Next steps – to consider local data
- Summary of sources used
